

küschall[®] *Ultra-Light*

Active wheelchair

New!

Precision is essential for *küschall*, and pushes us to bring more and more information to you. This is the reason why this new portfolio edition includes the weight of each part.

Thanks to these details, you will be able to compare the weight of all options and make a safe choice; you will then easily estimate the whole weight of the *Ultra-Light* wheelchair you have set.

Except any other indication, all weights indicated are based on seat width 40cm and seat depth 40cm. Options weights are calculated by pair when requested (e.g. for the wheels, push handles, brakes...) and with their related fixations.
